

Aaryash Kc

Seeking a challenging opportunity where I can perform, accomplish goals, enhance my knowledge, and contribute to the organization's growth with my excellent interpersonal skills and experience.

EXPERIENCE

Content Writer

Kpo and Company / Kathmandu / June, 2024 - Present

As a content writer, I am responsible for creating engaging, well-researched articles and marketing content that align with the company's brand voice. My role involves collaborating with cross-functional teams to ensure content consistency across all platforms, conducting thorough research to produce accurate and insightful content, and implementing SEO best practices to enhance our online presence and drive organic traffic.

Graphics Designer

DIVE Digital / Kathmandu / December, 2023 - May, 2024

As a Graphics Designer and Customer Service professional, I combine creative design skills with a strong commitment to client satisfaction. My role involves crafting visually appealing graphics that align with the company's branding while also addressing customer inquiries and concerns promptly and effectively. By balancing design innovation with excellent customer service, I ensure that clients receive both visually compelling content and a positive, supportive experience.

Hetauda School Of Management / Hetauda / August, 2020 - November, 2022

Bachelor of Computer Science

IIMS College / kathmandu / January, 2023 - Present

PROJECTS

Foot Step Power Generator

In the fourth semester of my bachelor's program, I participated in a project to design and create a footstep power generator. This innovative project aimed to harness kinetic energy from footsteps and convert it into electrical energy. I gained valuable skills in teamwork, problem-solving, and project management.

English, Nepali, Hindi

FoodBhook Donation Website Project

Leading the FoodBhook Donation Website Project enriched my project management skills and deepened my technical proficiency in web development, particularly with Node.js, MongoDB, XAMPP, and Stripe API integration. This experience reinforced my commitment to addressing social issues through technology, emphasizing user-centric design and community engagement.

Professionalism At Workplace: A Video Awareness Project

The goal of our project was to inform and motivate people about the value of professionalism in the workplace. We highlighted teamwork, ethical behavior, and effective communication throughout the Video as important traits and behaviors that support a professional workplace.
